## COMPETITIONS

### Season Mode

Season mode is a long-term challenge that is played over 5 full seasons, combining domestic league, cup and European cup campaigns. You can choose to play in the English, Spanish, German, Italian or French leagues, with the aim simply to win as many trophies as possible. If you finish in the top 16 in your first season, you will qualify for next season's domestic knockout cup. If you finish in the top 3 in the 2nd season, or win the domestic cup, you will qualify for the Euro Super League.

The Euro Super League starts as a group stage with 16 teams split into 4 groups of 4. Each team plays each other twice. ### League

You can define the rules for points awarded for a win, and whether you play each team once or twice. If a decision is still not possible, the winner will be decided by the toss of a coin!

### Knockout

The knockout game is a cup-like competition. Up to 4 human players can take part, with the whole knockout being made up of either 2, 4, 8 or 16 teams. You may select from any club or international teams and even use a mix of both if you wish. #### Classic Match

In this mode you have the chance to replay historical matches and perhaps even re-write history! A mix of 7 classic club and international match scenarios are available to play, with the aim of the game given to you before kick-off. Only ever one classic match is open to you so you must complete each challenge in order to progress to the next.

After loading, you are presented with the CERTIFICATE menu. This is where you choose the certificate type and the skill test type (Next Game). The skill test will remain blank until you have qualified for that particular certificate. At the start of each test you will be given instructions from David Beckham on what you have to do in the game. The time limit and your current score is indicated in the top left corner of the screen. Colored markers on the pitch indicate areas which you must not enter.
